C

Communicating with our

Benefits of ROCK Program:

- Improved communication within the home
- Stronger familial bonds
- Children's behavior improves
- Parents and kids connect better
- Learning your child's abilities, personality, dreams, goals, fears, preferences, etc.

K

Kids

Our service providers will adapt to each family's communication needs. Our primary goal is to work with parents in developing effective communication and language skills so parents and children can openly and honestly share issues and concerns with each other. Frustration with lack of communication does not need to continue. Please contact your local DHHSC office and request to become a ROCK family today! **ROCK sessions are free. This is made possible by all our past and current funders.**
